#### Communication From Commissioner of Agriculture.

(Printed here by order of the Senate.)

Austin, Texas, Feb. 10, 1921.

Hon. Lynch Davidson, President of the Senate, Capitol.

Dear Sir: There is pending in the Legislature a bill to transfer all the duties of the Live Stock Commission to the Department of Agriculture, and I have been quoted and misquoted in regard to this measure.

I have not recommended or requested that this law should be passed. I have stated that as a fundamental principle of proper governmental regulation it should have been placed under the Department of Agriculture when the law was enacted. But it is my opinion now that the Live Stock Sanitary Commission should continue as it is, until they finish the campaign for the eradication of ticks, and then when the number of men necessary to do that work has been greatly reduced, and the expenditures materially lessened, the work can be transferred to the Department of Agriculture without detriment and with possibly some saving to the State.

I have recommended that the Warehouse and Marketing Department be transferred to the Department of Agriculture, as a distinct saving of at least \$50,000.00 a year can be made by this transfer, and the proper reorganization of the forces of the two departments.

I have given twenty years study to market problems, both in this State and in the northern markets, and I have called to my assistance, now, some of the most capable men in the State, and I am receiving letters from all parts of the State congratulating me upon the high character and ability of some of the men I have selected, and I am prepared to select other men of high character and ability to serve the State, by appealing to their patriotism—and they are not "job hunters" seeking office.

I have also requested that the Farmers' Institute work, being done by the Department of Agriculture, be transferred to the Agricultural and Mechanical College, as it is an educational work, and that the Feed and Fertilizer, Forestry, and Foul Brood Laws, being administered by the Agricultural and Mechanical College, be

transferred to the Department of Agriculture, as they are administrative and regulatory and carry police supervision.

Dr. W. B. Bizzell, president of the Agricultural and Mechanical College, and I have agreed upon the principle, that all purely research and educational work, relating to the different phases of agriculture, should be done by the A. & M. College, and that all administrative and regulatory work, relating to the various phases of agriculture, carrying police supervision in the enforcement of laws, should be done by the Department of Agriculture, and this would include Feed and Fertilizer Control, and Forestry, and Foul Brood Work, being done by the A. & M. College.

We have not fully agreed upon the details of the bill—he contending for the exercise of joint authority between the A. & M. College and the Department of Agriculture in Feed Work, and the appointment of a Board to adjust the differences that might arise under joint control, and I contending for a complete transfer of authority to do the necessary work, so that no controversy can arise in the future.

We hope to reach a definite adjustment in the next few days.

In this connection I desire to say that there is pending in the Legislature a Forestry bill, known as Senate Bill No. 102 and House Bill No. 231 which carries with it vast powers and duties in the purchase of land and in the regulation and control of all matters pertaining to the forestry laws of the State and placing these duties under the A. & M. College, which are administrative, regulatory, and carry police powers, which duties clearly belong to the Department of Agriculture.

This law should not be passed until a clear understanding is had between the authorities of the A. & M. College and the Department of Agriculture, with respect to the performance of the duties required under this law.

I have not recommended the passage of any laws, or discussed any laws except those affecting the Department of Agriculture and I stand ready to meet any department of government half way, in the proper adjustment of all duties, so that duplication may be eliminated, strife

and conflict avoided, and economy and efficiency secured.

Please make letter a part of your permanent records so that my views may be made clear to all members of the Legislature.

Respectfully,

GEORGE B. TERRELL,  
Commissioner of Agriculture.

#### Excused.

On motion of Senator Parr for non-attendance for Saturday, Monday, Tuesday, on motion of Senator McNealus.

## STATE DEPARTMENT OF EDUCATION. (Continued.)

The increase of employees has been due to several changes:

(1) The rural aid appropriations and the classification of elementary schools have made necessary the employment of rural supervisors and supervisors of elementary work.

(2) The classification of high schools was taken from the University and placed in this department, necessitating the employment of high school supervisors. The number of classified high schools has greatly increased. These must be inspected annually.

(3) The number of classified colleges has greatly increased, and, in consequence, the work of inspecting these has required more employes.

(4) The classification of the academies of junior colleges has increased the work.

(5) More teachers than ever before are "building" on their certificates, to raise them to a higher grade. The certification work of the department has doubled in the last two years.

(6) The Smith-Hughes Vocational Work made necessary the employment of supervisors, required by the terms of the Federal law.

(7) The free text book law rendered necessary the establishment of the Text Book Division.

(8) The correspondence of the office, as a result of unusual activity in the schools, has almost doubled in the past two years.
